## Bell 214 Helicopter

This part is used on Bell 214 Helicopters, a heavy-lift model renowned for its powerful engine and exceptional payload capabilities. Often referred to as the "BigLifter," the Bell 214 is used in some of the most demanding environments, including oil fields and mountainous regions. **Unique Features of the Bell 214:**

- **High-Capacity Performance:** Capable of carrying large loads over long distances, essential for construction and logistics.
- **Robust Engine:** Equipped with a powerful engine that ensures reliable performance in high-altitude and high-temperature conditions.
- **Versatile Role:** Used in a variety of roles, from firefighting to military transport and external load operations.
- **Exceptional Durability:** Built to withstand the rigors of heavy lifting and extended operational use.

With its impressive lifting power and durability, the Bell 214 is a critical asset for missions that require

strength and reliability.

## Condition and Unit of Sale

---

**REPAIRABLE:** This item is in repairable condition, meaning it is currently non-functional or has minor defects, but it can be restored to full working order with proper repairs. The product has the potential to be fully operational after maintenance or refurbishment. It is ideal for those who have the skills, tools, or resources to perform the necessary repairs, making it a cost-effective solution compared to purchasing a new item.

**SOLD PER EACH:** This item is sold individually, with the price listed for a single unit. Perfect for purchasing the exact quantity needed without the requirement to buy in bulk. For larger quantities, consider reviewing any available bulk pricing options.
