Bell 214 Helicopter

This part is used on Bell 214 Helicopters, a heavy-lift model renowned for its powerful engine and exceptional payload capabilities. Often referred to as the "BigLifter," the Bell 214 is used in some of the most demanding environments, including oil fields and mountainous regions. **Unique Features of the Bell 214:**

- **High-Capacity Performance:** Capable of carrying large loads over long distances, essential for construction and logistics.
- **Robust Engine:** Equipped with a powerful engine that ensures reliable performance in high-altitude and high-temperature conditions.
- **Versatile Role:** Used in a variety of roles, from firefighting to military transport and external load operations.
- **Exceptional Durability:** Built to withstand the rigors of heavy lifting and extended operational use.

With its impressive lifting power and durability, the Bell 214 is a critical asset for missions that require strength and reliability.

Condition and Unit of Sale

AS IS / AS REMOVED: Parts listed under this condition are sold exactly as they were when removed from service, with no inspection, repair, or certification having been performed post-removal. There are no guarantees regarding their working condition or suitability for immediate use. This condition is

typically used for items that might require extensive refurbishment or serve as parts donors. Buyers should be aware that these items are not guaranteed to be functional and are sold without warranty, which may be appropriate for those who are looking to restore or repurpose parts at their own risk.

SOLD PER EACH: This item is sold individually, with the price listed for a single unit. Perfect for purchasing the exact quantity needed without the requirement to buy in bulk. For larger quantities, consider reviewing any available bulk pricing options.
