- Handle Thickness:** 0.41 in. (

10.4 mm)

Overall Length: 7.75 in. (19.7 cm)

Weight: 4.3 oz. (122 g)

Year Released: 2021

The Bracket is an XL version of the original Static cleaver. But rather than a simple size change, it has some fresh additions as well. A new glass-filled nylon front handle scale is plenty grippy, and its steel pivot overlay adds visual interest. Functionally, the Bracket opens easily with Kershaw's assisted opening. A large choil allows users to enhance their grip. The deep-carry pocketclip is reversible for right or left carry, and the handle also includes a new lanyard hole. Even with its changes, the knife weight is just as balanced the Static. Yet, the Bracket does something different, while remaining a practical and fun cleaver for the collection.

- Cleaver-style blade for top cutting performance; plus-size version of the Static
- 8Cr13MoV blade takes a sharp edge and is easy to re-sharpen when needed; stonewashed finish helps hide use scratches
- Textured glass-filled nylon front handle includes steel pivot overlay; stainless steel back
- Opens quickly and easily with Kershaw's assisted opening and built-in flipper
- Included lanyard hole; deep-carry pocketclip is easily reversible for left/right carry

KERSHAW KNIVES

Kershaw knives are renowned for their precision, durability, and innovative designs, making them a trusted choice for outdoor enthusiasts, professionals, and everyday users alike. Each Kershaw knife is crafted with high-quality materials, delivering excellent edge retention, strength, and comfort. Known for pioneering technologies like assisted opening, Kershaw combines functionality with sleek, ergonomic designs that fit seamlessly into any lifestyle. Whether you need a dependable tool for rugged outdoor adventures, worksite demands, or daily carry, Kershaw knives provide performance and reliability with every cut.

History of Kershaw Knives

The knife industry has evolved over the past 50 years, but Kershaw has remained steadfast in its commitment to quality and craftsmanship. Founded by Pete Kershaw, an avid outdoorsman, Kershaw began in 1974 in Lake Oswego, Oregon. Originally focused on hunting knives, Pete searched for the best materials and craftsmanship to ensure lasting quality.

Around this time, Kai, a Japanese company with a long history in crafting fine blades, was expanding internationally. Kershaw and Kai joined forces, merging Pete's quality-focused vision with Kai's experience in bladed tools, creating a partnership that has endured for decades.

The 1990s marked a new chapter for Kershaw, introducing innovative features like the first liner lock knives in the Liner Action series. With Kai CEO Koji Endo's support, Kershaw established a USA manufacturing facility to expand production and innovation. **Industry-Changing Technology** In 1998, Kershaw pioneered the assisted opening mechanism, which revolutionized the knife industry and became a hallmark of the brand. **Innovating for Tomorrow** Today, Kershaw continues to innovate at its Tualatin, Oregon, facility, creating knives with advanced technology, Kershaw Original designs, and

collaborations with top custom makers, constantly pushing the boundaries of knife design and functionality.

Part Number Information

Part Number: KER3455

Unpunctuated: KER3455

Product Testing: *Every product is inspected for accuracy, quality, and functionality before shipping to meet our high standards.*

Alternate Part Numbers: *Due to the nature of ever-evolving part numbering structure, multiple part numbers may meet the same specifications and performance standards. If only an alternate part number is available, we will contact you to confirm compatibility. We strongly recommend consulting the appropriate repair manuals to ensure accuracy before using an alternate part.*
