

52Z1835-048 - SELF-LOCKING WASHER NUT, EXTENDED

Description

52Z1835-048 - SELF-LOCKING WASHER NUT, EXTENDED

A self-locking washer nut is a fastening device that combines a nut with a built-in locking mechanism to prevent it from loosening. It is typically used in applications where vibrations or movement could cause a standard nut to come loose, ensuring a secure and stable connection.

PRODUCT INFORMATION

New Surplus: These parts are classified as new and unused, meaning they have not been installed or placed into service. However, they come without traceability or original manufacturer certifications, which might be required for certain high-level regulatory uses. Our company provides its own Certificate of Conformance (CoC) as a statement of assurance that the parts are in good working condition and have been sourced from reliable channels. These are ideal when the focus is on cost-effectiveness without compromising on quality.

Sold Per Each: This item is sold individually, with the price listed for a single unit. Perfect for purchasing the exact quantity needed without the requirement to buy in bulk. For larger quantities, consider reviewing any available bulk pricing options.

FEATURES

Nut Style: Double Hexagon Type: All Metal

MATERIALS

Surface Treatement: Cadmium

MEASUREMENTS AND SPECIFICATIONS

Head Width: 3/8"
Temperature Rating: 550°F
Thread Size: 1/4-28
Washer Outside Diameter: 0.443"
Washer Thickness: 0.060"-0.080"

Part Number

Unpunctuated: 52Z1835048
NSN: 5310-00-688-2069

Date

2025/04/30
