Handle Finish/Coating: Black anodized

Handle Thickness: 0.5 in. (12.7 mm)

Overall Length: 7.7 in. (19.6 cm)

Weight: 3 oz. (85 g)

Year Released: 2024

The Launch 19 brings high quality materials together like no other automatic. Its standout handle is constructed with black-anodized aluminum and earth brown G10 for a stunning and comfortable design. Equally stunning is the CPM 154 blade, sporting a satin and black Cerakote two-tone finish. The clip point blade performs sharply during work tasks, and the finger choil allows users to choke up on the knife for detail work. Extra features include a bronze-anodized titanium tube spacer, a reversible deep-carry pocket clip, and a lanyard hole. The Launch 19 looks sharp, opens with authority, and cuts even better.

- Made in the USA; tactical work knife
- Black-anodized aluminum and earth brown G10 combo handle; includes finger choil for extra grip and bronze-anodized titanium tube spacer
- The CPM 154 powdered metallurgy blade steel takes and holds an excellent edge, provides corrosion resistance, wear resistance, toughness; high contrast blade finish with black Cerakote flats and satin grinds
- Low-profile push button makes it harder for blade to accidentally deploy; deep-carry pocket clip is easily reversible for left/right carry

Information sourced directly from Kershaw Knives. We are proud to be an authorized distributor of Kershaw Knives. Comply with all local, State, and Federal regulations regarding the purchase, owning, carrying, and transportation of automatic knives.

KERSHAW KNIVES

Kershaw knives are renowned for their precision, durability, and innovative designs, making them a trusted choice for outdoor enthusiasts, professionals, and everyday users alike. Each Kershaw knife is crafted with high-quality materials, delivering excellent edge retention, strength, and comfort. Known for pioneering technologies like assisted opening, Kershaw combines functionality with sleek, ergonomic designs that fit seamlessly into any lifestyle. Whether you need a dependable tool for rugged outdoor adventures, worksite demands, or daily carry, Kershaw knives provide performance and reliability with every cut.

History of Kershaw Knives

The knife industry has evolved over the past 50 years, but Kershaw has remained steadfast in its commitment to quality and craftsmanship. Founded by Pete Kershaw, an avid outdoorsman, Kershaw began in 1974 in Lake Oswego, Oregon. Originally focused on hunting knives, Pete searched for the best materials and craftsmanship to ensure lasting quality.

Around this time, Kai, a Japanese company with a long history in crafting fine blades, was expanding internationally. Kershaw and Kai joined forces, merging Pete's quality-focused vision with Kai's experience in bladed tools, creating a partnership that has endured for decades.

The 1990s marked a new chapter for Kershaw, introducing innovative features like the first liner lock

knives in the Liner Action series. With Kai CEO Koji Endo's support, Kershaw established a USA manufacturing facility to expand production and innovation. **Industry-Changing Technology** In 1998, Kershaw pioneered the assisted opening mechanism, which revolutionized the knife industry and became a hallmark of the brand. **Innovating for Tomorrow** Today, Kershaw continues to innovate at its Tualatin, Oregon, facility, creating knives with advanced technology, Kershaw Original designs, and collaborations with top custom makers, constantly pushing the boundaries of knife design and functionality.

Part Number Information

Part Number: 7851

Unpunctuated: 7851

Product Testing: *Every product is inspected for accuracy, quality, and functionality before shipping to meet our high standards.*

Alternate Part Numbers: *Due to the nature of ever-evolving part numbering structure, multiple part numbers may meet the same specifications and performance standards. If only an alternate part number is available, we will contact you to confirm compatibility. We strongly recommend consulting the appropriate repair manuals to ensure accuracy before using an alternate part.*
