

AN24-32A - BOLT, CLEVIS, NSN: 5306-00-156-2391, NIIN: 1562391

Description

AN24-32A - BOLT, CLEVIS

NSN: 5306-00-156-2391, NIIN: 1562391

New Surplus, Sold Per Each

A Clevis Bolt is a specialized fastener with an unthreaded shank and a cross-drilled hole near the end, designed to be secured with a cotter pin. Commonly used in aircraft, automotive, and construction applications, it provides a pivot point for mechanical linkages and allows rotational movement while ensuring a secure connection.

Specifications

Head Style: Button Surface Treatment: Cadmium And Chromate Material: Steel Diameter Groove: 0.191" min - 0.201" max Fastener Length: 2.031" nom Head Diameter: 0.500" nom Head Height: 0.125" nom Shear Strength Single: 3680 psi Tensile Strength min: 125000 psi Thread Class: 3A Thread Diameter: 0.250" Thread Direction: Right-Hand Thread Length: 0.272" min Thread Quantity Per Inch: 28 Thread Series Designator: Unf Internal Drive Style: Slot

Part Number: AN24-32A Unpunctuated: AN2432A NSN: 5306-00-156-2391 NIIN: 1562391

AN standards, originally developed by the U.S. Army and Navy, cover a variety of components such as bolts, nuts, and fittings, ensuring compatibility and reliability in military and aerospace systems.

New Surplus: These parts are classified as new and unused, meaning they have not been installed or placed into service. However, they come without traceability or original manufacturer certifications, which might be required for certain high-level regulatory uses. Our company provides its own Certificate of Conformance (CoC) as a statement of assurance that the parts are in good working condition and have been sourced from reliable channels. These are ideal when the focus is on cost-effectiveness without compromising on quality.

Sold Per Each: This item is sold individually, with the price listed for a single unit. Perfect for purchasing the exact quantity needed without the requirement to buy in bulk. For larger quantities, consider reviewing any available bulk pricing options.

Product Testing: Every product is inspected for accuracy, quality, and functionality before shipping to meet our high standards.

Alternate Part Numbers: Due to the nature of ever-evolving part numbering structure, multiple part numbers may meet the same specifications and performance standards. If only an alternate part number is available, we will contact you to confirm compatibility. We strongly recommend consulting the appropriate repair manuals to ensure accuracy before using an alternate part.
