NSN: 5935-00-201-8072

Description

AN3115-1 - CONNECTOR, RECEPTACLE

NSN: 5935-00-201-8072

New Surplus, Sold Per Each

A receptacle is a female electrical fitting, typically mounted in a wall or panel, that contains contact points designed to receive a plug, thereby establishing an electrical connection to a power source or another device.

Specifications

Type: Phenolic Electrical Connector For Heated Pitot Tubes.

Part Number Info

Part Number: AN3115-1

Unpunctuated: AN31151

NSN: 5935-00-201-8072

New Surplus: These parts are classified as new and unused, meaning they have not been installed or placed into service. However, they come without traceability or original manufacturer certifications, which might be required for certain high-level regulatory uses. Our company provides its own Certificate of Conformance (CoC) as a statement of assurance that the parts are in good working condition and have been sourced from reliable channels. These are ideal when the focus is on cost-effectiveness without compromising on quality.

Sold Per Each: This item is sold individually, with the price listed for a single unit. Perfect for purchasing the exact quantity needed without the requirement to buy in bulk. For larger quantities,

consider reviewing any available bulk pricing options.

Alternate Part Numbers: Due to the nature of ever-evolving part numbering structure, multiple part numbers may meet the same specifications and performance standards. If only an alternate part number is available, we will contact you to confirm compatibility. We strongly recommend consulting the appropriate repair manuals to ensure accuracy before using an alternate part.
