AS5169J10L - PLUG (COMING SOON)

Condition: New

Unit of Sale: Sold Per Each

PART NUMBER INFORMATION

Unpunctuated: AS5169J10L

AS STANDARD

AS (Aerospace Standard) components are designed to meet the high-performance and safety requirements of the aerospace industry. Manufactured from high-quality materials like **titanium**, **stainless steel**, and **specialized alloys**, AS parts ensure durability and performance in extreme environments. Each AS part is coded to ensure compliance with aerospace industry standards and provides traceability for safety-critical applications. Refer to **specification sheets** for precise details.

HISTORY

AS STANDARDS were created by **SAE International** (Society of Automotive Engineers) to address the growing complexity of aerospace manufacturing. The introduction of these standards allowed for consistent quality across the aerospace supply chain, improving both the production and maintenance of aircraft and spacecraft.

Condition and Unit of Sale

NEW: These parts are classified as new and come with one or more of the following supporting documents: pick tickets, packing slips, or original labels from the manufacturer. They may also include certifications such as FAA 8130, ATA 106 forms, a Certificate of Conformance (CoC) from the manufacturer, ISC Certification, FAA 121 authorization, or JAA Form 1. These documents verify the

authenticity and traceability of the parts, making them suitable for regulated industries where stringent documentation is required.

SOLD PER EACH: This item is sold individually, with the price listed for a single unit. Perfect for purchasing the exact quantity needed without the requirement to buy in bulk. For larger quantities, consider reviewing any available bulk pricing options.
