

BAC10-60806-50 - CIRCUIT BREAKER

Description

COMING SOON

The details provided on this page are subject to change. For any questions about **BAC10-60806-50** please use the **ASK A QUESTION** option above.

BAC10-60806-50 - CIRCUIT BREAKER (COMING SOON)

Condition: As Is / As Removed

Unit of Sale: Sold Per Each

PART NUMBER INFORMATION

Unpunctuated: BAC106080650

BAC STANDARD

BAC (Boeing Aircraft Company) components are engineered to meet Boeing's stringent quality and performance standards, critical for ensuring reliability in Boeing aircraft. BAC components include:

- **Fasteners:** High-strength fasteners for structural assemblies.
- **Clamps & Brackets:** Secure hoses, cables, and components.
- **Fittings:** Precision fittings for fluid and pneumatic systems.
- **Electrical Connectors:** Robust connectors for reliable electrical performance.

BAC parts undergo rigorous testing to meet Boeing's standards, and each is meticulously coded for identification and traceability. Refer to the relevant **specification sheets** for details.

HISTORY

Boeing was founded by William E. Boeing in Seattle, Washington, in 1916. Initially a manufacturer of seaplanes, the company quickly grew into a major player in the aerospace industry. During World War I, **Boeing** produced aircraft for the U.S. Navy, marking the beginning of its role as a key supplier to the military.

Over the years, **Boeing** expanded its product line to include commercial aircraft, becoming a global leader in commercial aviation with the launch of iconic models like the **707**, **747**, and later the **787 Dreamliner**.

Boeing also played a pivotal role in space exploration, contributing to NASA programs like the **Apollo missions** and **the International Space Station**. Today, **Boeing** remains one of the largest aerospace manufacturers in the world, producing commercial jets, military aircraft, satellites, and space exploration systems. Its legacy is built on innovation, quality, and a commitment to advancing the future of flight.

Condition and Unit of Sale

AS IS / AS REMOVED: Parts listed under this condition are sold exactly as they were when removed from service, with no inspection, repair, or certification having been performed post-removal. There are no guarantees regarding their working condition or suitability for immediate use. This condition is typically used for items that might require extensive refurbishment or serve as parts donors. Buyers should be aware that these items are not guaranteed to be functional and are sold without warranty, which may be appropriate for those who are looking to restore or repurpose parts at their own risk.

SOLD PER EACH: This item is sold individually, with the price listed for a single unit. Perfect for purchasing the exact quantity needed without the requirement to buy in bulk. For larger quantities, consider reviewing any available bulk pricing options.
