BAC STANDARD

BAC (Boeing Aircraft Company) components are engineered to meet Boeing’s stringent quality and performance standards, critical for ensuring reliability in Boeing aircraft. BAC components include:

- **Fasteners:** High-strength fasteners for structural assemblies.
- **Clamps & Brackets:** Secure hoses, cables, and components.
- **Fittings:** Precision fittings for fluid and pneumatic systems.
- **Electrical Connectors:** Robust connectors for reliable electrical performance.

BAC parts undergo rigorous testing to meet Boeing’s standards, and each is meticulously coded for identification and traceability. Refer to the relevant **specification sheets** for details.

HISTORY

Boeing was founded by William E. Boeing in Seattle, Washington, in 1916. Initially a manufacturer of seaplanes, the company quickly grew into a major player in the aerospace industry. During World War

I, **Boeing** produced aircraft for the U.S. Navy, marking the beginning of its role as a key supplier to the military.

Over the years, **Boeing** expanded its product line to include commercial aircraft, becoming a global leader in commercial aviation with the launch of iconic models like the **707**, **747**, and later the **787 Dreamliner**.

Boeing also played a pivotal role in space exploration, contributing to NASA programs like the **Apollo missions** and the **International Space Station**. Today, **Boeing** remains one of the largest aerospace manufacturers in the world, producing commercial jets, military aircraft, satellites, and space exploration systems. Its legacy is built on innovation, quality, and a commitment to advancing the future of flight.

PURCHASE AND SHIPPING DETAILS

NEW SURPLUS: These parts are classified as new and unused, meaning they have not been installed or placed into service. However, they come without traceability or original manufacturer certifications, which might be required for certain high-level regulatory uses. Our company provides its own Certificate of Conformance (CoC) as a statement of assurance that the parts are in good working condition and have been sourced from reliable channels. These are ideal when the focus is on cost-effectiveness without compromising on quality.

SOLD PER EACH: This item is sold individually, with the price listed for a single unit. Perfect for purchasing the exact quantity needed without the requirement to buy in bulk. For larger quantities, consider reviewing any available bulk pricing options.
