

BACW10BN31P - WASHER

Description

BACW10BN31P - WASHER

Condition: New
Unit of Sale: Sold Per Each

PART NUMBER INFORMATION

Unpunctuated: BACW10BN31P

BAC STANDARD

BAC (Boeing Aircraft Company) components are engineered to meet Boeing’s stringent quality and performance standards, critical for ensuring reliability in Boeing aircraft. BAC components include:

- **Fasteners:** High-strength fasteners for structural assemblies.
- **Clamps & Brackets:** Secure hoses, cables, and components.
- **Fittings:** Precision fittings for fluid and pneumatic systems.
- **Electrical Connectors:** Robust connectors for reliable electrical performance.

BAC parts undergo rigorous testing to meet Boeing’s standards, and each is meticulously coded for identification and traceability. Refer to the relevant **specification sheets** for details.

HISTORY

Boeing was founded by William E. Boeing in Seattle, Washington, in 1916. Initially a manufacturer of seaplanes, the company quickly grew into a major player in the aerospace industry. During World War

I, **Boeing** produced aircraft for the U.S. Navy, marking the beginning of its role as a key supplier to the military.

Over the years, **Boeing** expanded its product line to include commercial aircraft, becoming a global leader in commercial aviation with the launch of iconic models like the **707**, **747**, and later the **787 Dreamliner**.

Boeing also played a pivotal role in space exploration, contributing to NASA programs like the **Apollo missions** and **the International Space Station**. Today, **Boeing** remains one of the largest aerospace manufacturers in the world, producing commercial jets, military aircraft, satellites, and space exploration systems. Its legacy is built on innovation, quality, and a commitment to advancing the future of flight.

Condition and Unit of Sale

NEW: These parts are classified as new and come with one or more of the following supporting documents: pick tickets, packing slips, or original labels from the manufacturer. They may also include certifications such as FAA 8130, ATA 106 forms, a Certificate of Conformance (CoC) from the manufacturer, ISC Certification, FAA 121 authorization, or JAA Form 1. These documents verify the authenticity and traceability of the parts, making them suitable for regulated industries where stringent documentation is required.

SOLD PER EACH: This item is sold individually, with the price listed for a single unit. Perfect for purchasing the exact quantity needed without the requirement to buy in bulk. For larger quantities, consider reviewing any available bulk pricing options.
