Handle Thickness:

0.35 in. (8.9 mm)

Overall Length: 7 in. (17.9 cm)

Weight: 2.4 oz. (68 g)

Year Released: 2013

The brilliant orange color of this Leek's anodized-aluminum handle is a fade-resistant, scratch-resistant dye that's permanently bonded to the aluminum—so it looks good now and will continue to look good later. The business end of the knife is a task-ready 3-inch blade of 14C28N stainless steel. This high-performance steel enables us to ensure the Leek's blade is razor sharp out of the box and holds that edge for a long time.

- Bright, “see me” orange handle; Made in the USA
- 14C28N high-performance stainless steel blade holds its edge, resharpenes easily; stonewashed finish hides use scratches so your knife looks like new longer
- Anodized aluminum handle is comfortable, scratch and fade resistant
- Kershaw's assisted opening with convenient flipper; Tip-Lock secures blade when closed

Information sourced directly from Kershaw Knives. We are proud to be an authorized distributor of Kershaw Knives.

KERSHAW KNIVES

Kershaw knives are renowned for their precision, durability, and innovative designs, making them a trusted choice for outdoor enthusiasts, professionals, and everyday users alike. Each Kershaw knife is crafted with high-quality materials, delivering excellent edge retention, strength, and comfort. Known for pioneering technologies like assisted opening, Kershaw combines functionality with sleek, ergonomic designs that fit seamlessly into any lifestyle. Whether you need a dependable tool for rugged outdoor adventures, worksite demands, or daily carry, Kershaw knives provide performance and reliability with every cut.

History of Kershaw Knives

The knife industry has evolved over the past 50 years, but Kershaw has remained steadfast in its commitment to quality and craftsmanship. Founded by Pete Kershaw, an avid outdoorsman, Kershaw began in 1974 in Lake Oswego, Oregon. Originally focused on hunting knives, Pete searched for the best materials and craftsmanship to ensure lasting quality.

Around this time, Kai, a Japanese company with a long history in crafting fine blades, was expanding internationally. Kershaw and Kai joined forces, merging Pete's quality-focused vision with Kai's experience in bladed tools, creating a partnership that has endured for decades.

The 1990s marked a new chapter for Kershaw, introducing innovative features like the first liner lock knives in the Liner Action series. With Kai CEO Koji Endo's support, Kershaw established a USA manufacturing facility to expand production and innovation. **Industry-Changing Technology** In 1998, Kershaw pioneered the assisted opening mechanism, which revolutionized the knife industry and became a hallmark of the brand. **Innovating for Tomorrow** Today, Kershaw continues to innovate at its Tualatin, Oregon, facility, creating knives with advanced technology, Kershaw Original designs, and collaborations with top custom makers, constantly pushing the boundaries of knife design and functionality.

Part Number Information

Part Number: 1660OR

Unpunctuated: 1660OR

Product Testing: *Every product is inspected for accuracy, quality, and functionality before shipping to meet our high standards.*

Alternate Part Numbers: *Due to the nature of ever-evolving part numbering structure, multiple part numbers may meet the same specifications and performance standards. If only an alternate part number is available, we will contact you to confirm compatibility. We strongly recommend consulting the appropriate repair manuals to ensure accuracy before using an alternate part.*
