

Narrow Digging Bucket for Mini Excavators

Description

Heavy-Duty 7.87" Narrow Digging Bucket for Mini Excavators

Designed for precision and durability, this **7.87-inch narrow digging bucket** is ideal for tackling tight trenching jobs with mini excavators. Whether you're working on *pipe installations*, *ditch digging*, or *riverbed management*, this compact bucket delivers efficient results with every scoop.

- **Heavy-Duty Construction:** Built to withstand tough jobs with durable metal teeth and reinforced steel design.
- **Rustproof & Waterproof:** Engineered for long-lasting use in harsh outdoor environments.
- **Effortless Installation:** Compatible with most mini excavators and installs easily using a 2-pin setup.
- **Precision Trenching:** Perfect for narrow digs such as utility trenches, cable runs, and irrigation lines.

Dimensions: 7.87" wide
Part Number: 7.87 TRENCH BUCKET

Rugged. Compact. Built for the jobsite.
