

1770 - PELICAN PROTECTOR LONG CASE

Description

1770 - PELICAN PROTECTOR LONG CASE

Since 1976, **Pelican™ Protector Cases** have been the go-to solution for safeguarding sensitive equipment. Built to endure the harshest conditions on the planet, they stand strong against everything from the frigid cold of the Arctic to the intense heat of combat.

Proudly made in the USA, these durable cases feature an automatic purge valve to balance air pressure, a watertight silicone O-ring seal, sturdy over-molded rubber handles, and corrosion-resistant stainless steel hardware.

PRODUCT INFORMATION

New Surplus: These parts are classified as new and unused, meaning they have not been installed or placed into service. However, they come without traceability or original manufacturer certifications, which might be required for certain high-level regulatory uses. Our company provides its own Certificate of Conformance (CoC) as a statement of assurance that the parts are in good working condition and have been sourced from reliable channels. These are ideal when the focus is on cost-effectiveness without compromising on quality.

Sold Per Each: This item is sold individually, with the price listed for a single unit. Perfect for purchasing the exact quantity needed without the requirement to buy in bulk. For larger quantities, consider reviewing any available bulk pricing options.

FEATURES

Warrenty: Pelican Lifetime Guarantee of Excellence

MATERIALS

Body Material: Polypropylene

Latch Material: ABS

O-Ring Material: EPDM

Pin Material: Stainless Steel

Purge Body Material: ABS

Purge Vent Material: 3 Micron Hydrophobic Non-Woven

MEASUREMENTS AND SPECIFICATIONS

Exterior: 57.42" x 18.48" x 10.50" (LxWxH)

Interior: 54.58" x 15.58" x 8.63" (LxWxH)

Temperature Range: -40°F-210°F

Weight: 36.01 LBS

Part Number

Unpunctuated: 1770

Manufacturer SKU: 017700-0000-110

NSN: No NSN Information

Product Inspection and Alternate Part Numbers: *We inspect all products for functionality and condition before shipping to ensure you receive high-quality items. While our new surplus items may occasionally feature alternate part numbers, we ensure that these alternates meet the same specifications and performance standards as the original part. If only an alternate part number is available, we will contact you prior to shipping to confirm that it meets your requirements. Please note that the specifications on our site are sourced from multiple references. We recommend verifying the correct part number with your repair manuals to ensure accurate ordering. If you have any concerns about product specifics, feel free to contact us for more details.*

PELICAN CASES

Pelican cases are renowned for their resilience, taking on rough handling, weather, and impacts while maintaining uncompromising quality. Located in Torrance, CA, with a 200,000-square-foot facility, Pelican has expanded its reach worldwide with six manufacturing sites, 23 sales offices, and multiple case centers and service hubs. Through strategic global expansion, innovative products, and a dedication to quality, Pelican continues to serve customers around the world.

History of Pelican Cases

Thier legacy began in 1976 when scuba enthusiast Dave Parker, in his Torrance, CA garage, created a safety tool using twine, a hockey stick, and a metal weight to mark diving spots. Dubbed the “Pelican Float,” this innovative device was designed to float on the water’s surface, signaling divers to key locations. Knowing it could save lives, Dave’s invention set Pelican on a path toward creating reliable gear for professionals. Driven by a vision to protect, he soon developed a rugged, water-resistant first-aid case for divers, crafted to shield contents from water and dust. The case was an instant hit and became a go-to solution for safely storing valuables in harsh environments.

From these early days, Pelican grew into a trusted name globally, recognized for high-performance protective cases, temperature-controlled packaging, and advanced portable lighting solutions. Throughout Pelican’s growth, the commitment to quality and reliability remains true to Dave’s mission: safeguarding what matters most. Today, police, firefighters, military personnel, photographers, and countless others depend on Pelican cases to protect their gear, tools, and essentials.
